

Ready for Movement Pre-Exercise Screening: Current Fitness & Activity Background

Current Physical Fitness

RPE Training Zones			
Rating of perceived exertion (RPE) uses a scale of 1–10 based on how difficult physical activity feels. This scale helps gauge your effort level based on changes breathing, heart, and muscle fatigue.			
Intensity	RPE	Heart Rate	Description
 LIGHT	5–6	40–55 % HRmax*	• Can sustain for 60+ minutes • Breathing is easy, no noticeable
 FAIR	3–4	55–70 % HRmax*	• Lasts 30–60 minutes • Slight increase in breathing
 HARD	5–6	70–80 % HRmax*	• Lasts 20–30 minutes • Breathing is noticeable
 VERY HARD	7–8	80–90 % HRmax*	• Lasts 10–20 minutes
 MAX	9–10	>90 % HRmax*	• Talking very few words, laboured breathing

Adapted from the Adult Pro Exercise Screening System (APSS) V2 Exercise Intensity Guidelines (Figure 2).
Modified from Norton K, L. Norton & D. Sadgrove. (2010). Position statement on physical activity and exercise intensity terminology. J Sci Med Sport 13, 495–502.

Frequency

How many times per week do you engage in some form of physical activity or exercise?

We ask about your weekly physical activity to understand your general movement patterns and help us support you safely in gymnastics-inspired training. This information helps us plan appropriate progressions and does not diagnose or assess health conditions.

Body Composition

We collect these details to help us understand your current movement readiness and support you safely in your training journey.

Gymnastics-based activities place unique demands on the body, and knowing your starting point helps us determine the most appropriate and supportive way for you to begin.

For some participants this may be in group classes, while others

Please Remember: This information is never used to judge or assess your worth — it simply helps us create a pathway that feels safe, achievable, and aligned with your individual needs.

Do you know your current height in centimetres (cm)?

Yes, I can provide my current height in cm

I don't know my exact height, but I can estimate it

Do you know your current weight in kilograms (kg)?

Yes, I can provide my current weight in kg

I don't know my exact weight, but I can provide an estimation

Height (centimetres)

Sharing your height helps us understand how to support you safely, as certain gymnastics-based movements can feel different depending on a person's height. Knowing this simply helps us plan appropriate progressions and ensure your training experience is comfortable and achievable.

Fitness Background #3 ▾

Your Fitness Background

What is your physical activity/fitness background?
(Current or past)

Select all that apply. There are no right or wrong answers—this simply helps us understand your experience and what you're familiar with. If none of the options fully reflect your background, choose "Other" and provide details.

Everyday Movement & Basic Workouts

- ☐ I can do basic everyday movements (squats, lunges, push-ups) but haven't done structured training.
- ☐ Bodyweight style workouts – no/limited use of machines or heavy weights.
- ☐ Dance-style movement (Zumba, contemporary, hip-hop etc)
- ☐ Gymnastics (any style)

- ☐ Police Operational Physical Training — On-duty police physical training completed during service.
- ☐ Other (Please specify)
- ☐ Calisthenics – bodyweight strength training
- ☐ Plyometrics (Jumping, explosive movements)
- ☐ CrossFit
- ☐ High-Intensity Interval Training (HIIT)
- ☐ Bootcamps / Circuit-style training
- ☐ Pole dancing
- ☐ Aerial arts (silks, lyra, aerial rope)
- ☐ Australian calisthenics (fusion of dance, gymnastics, and theatre)
- ☐ Acrobatics (circus-style)
- ☐ Parkour / tricking / free-running
- ☐ Ninja Warrior style / Obstacle-race Style Conditioning
- ☐ Pilates
- ☐ Yoga
- ☐ Agility-based sports (footy, netball, basketball, soccer etc.)
- ☐ Self-defence and/or boxing-style fitness sessions.
- ☐ Boxing / Kickboxing
- ☐ Karate / Jiu-Jitsu / Muay Thai / MMA
- ☐ Military-inspired tactical fitness — civilian training inspired by military methods with an emphasis on obstacle-style movements: pull-ups, rope climbs, bear crawls, low crawls, broad jumps, lunges, burpees, muscle-ups, and dynamic core/anti-rotation work.
- ☐ Police-inspired bodyweight training — emphasis on sprinting, partner control/holds, sprawls, push/pull, pistol squats, lunges, burpees, climb/hoist drills mimicking restraint and pursuit tasks.

☐ ADF Field Training

Expressive & Flow (Arts, Sports and/or Fitness)

Mind & Body Fitness

Combat, Self-Defence & Agility-Based (Sports, Conditioning and/or Fitness)

Gymnastics Follow-up #1 Past/...

Your Gymnastics Experience

Is your gymnastics experience current, or from the past?

I currently train or participate in gymnastics

I did some gymnastics in the past but not anymore

I have done gymnastics in the past and recently

I made a mistake – I have never done gymnastics before

Next →

Gymnastics Follow-up #5

What kind of gymnastics do you participate in? (Optional)

Feel free to share more about your experience—this helps us better understand your training background and tailor things appropriately.

- Whether you participate recreationally, competitively or both
- If you compete, what level do you compete at?
- Whether your training is on a regular or casual basis
- If regularly training, how many hours per week are you training?
- What style of gymnastics your experience relates to (artistic, rhythmic, acro, or tumbling, tramp)
- How long you have been participating in gymnastics for?

e.g., Recreational or competitive, level (if applicable), training frequency and weekly hours, gymnastics style(s), and years of experience

What kind of gymnastics experience have you had in the past? (Optional)

Share any relevant details about your previous experience—this helps us understand your past training background. You can include the type of gymnastics, whether you trained recreationally or competitively, your level (if applicable), how often you trained, how long you were involved, and when you stopped.

e.g., Trampoline, recreational, trained 1–2x/week for 2 years, stopped in 2022

What kind of gymnastics experience do you have? (Optional)

Share any relevant details about your experience—this helps us better understand your background and training exposure. You can include the type of gymnastics, whether you train recreationally or competitively, your level (if applicable), how often you train, and how long you've been involved.

Your Movement & Strength Goals

At GYMFUSION, we focus on building strength, control, and movement through progressive bodyweight training. While many people begin with appearance-based goals, our approach helps you shift toward what your body can *do*.

Research shows that focusing on performance and capability makes training more rewarding and easier to maintain long-term — with strength, confidence, and aesthetics improving along the way.

What would you like to achieve, and what skills are you most excited to develop through your training with us?

e.g., Feel strong, learn cool skills like pull-ups or handstands, and feel confident in my body while my physique improves naturally through training

What would you like to achieve and what skills are you most excited to develop through your training with us?

✓ Improve my mobility & flexibility

✓ Injury resilience / body durability

✓ Lower body strength & control

✓ Achieve my first pull-up

✓ Improve agility, coordination and control

✓ Build a general strength foundation

✓ Improve my upper body strength

✓ Develop grip strength

✓ Improve my posture

✓ Achieve my first handstand

✓ Progress my skills further

✓ Feel more confident in my body and movement

✓ Learn the splits

✓ Hold my own body weight

✓ Connect with others on their fitness journey

✓ Something else?

What best describes your mindset towards fitness training?

- ☐ I'm a bit nervous but keen to give it a go
- ☐ I prefer having structure and guidance in my training
- ☐ I enjoy learning new skills and improving technique
- ☐ I want to build strength gradually and correctly
- ☐ I'm motivated by seeing progress and visible results
- ☐ My consistency improves when I train with others
- ☐ I enjoy being challenged and working towards difficult goals
- ☐ I'm interested in understanding how my body moves and improves
- ☐ I want to build a consistent and sustainable training routine
- ☐ I value training as a way to support my mental wellbeing

methods inspired by gymnastics and calisthenics.

What interests you most about this style of training?

There's no right or wrong answer — tell us what stands out to you or what excites you about this approach.

e.g., Learning new skills, building strength, and trying something different from a typical gym.
